

Efficient & Secure Data Aggregator

Empower your Data & Analytics with OPC UA

WANT TO GET THE MOST OUT OF YOUR OT DATA?

- Monitor and control in real time
- Connect to the Cloud
- Add advanced processing (AI, predictive maintenance, etc.)

PREPARE THE FUTURE NOW! CHOOSE A SOLUTION THAT IS:

- Interoperable and standardized (no vendor lock)
- Scalable
- Extensible
- The bastion of your production servers

WITH COMPREHENSIVE SECURITY

- OPC UA approved by national agencies (BSI, ANSSI, etc.)
- Native OPC UA cybersecurity features deployed
- Based on a CSPN certified library (S2OPC)

**A high-performance single point of access to all your OPC UA servers.
Secured. Simple to use.**

Specifications

OPC Specifications	OPC Unified Architecture V1.04
Compliance/Certification	Regularly tested at OPC Foundation interoperability workshops Tested with OPC Foundation compliance test tool
Operating Systems	Windows 11, Linux (Ubuntu 24.04)
Licensing	Annual subscription or perpetual license
Maintenance	Annual subscription

Features

Mirroring Source Servers Address Space (with filters)	Read / Write / Browse Subscriptions
Maintenance	Monitor sources statuses Monitor sources statistics Maintenance events
Administration	Activate / Deactivate a source Add a new source Administration events (License alerts, internal queues monitoring alerts) Load monitoring

Cybersecurity

Secure Channel with Sign or SignAndEncrypt security policies (RSA based)

Access Levels, User Access Levels

Roles & Permissions

Performances

Low memory footprint

Up to 250 aggregated servers

Up to 50 clients

Up to 1 million aggregated nodes

Additional Products and Services

Extensions for additional connectivity or features on demand

Certificate Management (GDS)

Domain filters
